

## Dräger Panorama Nova Dive Diving Mask

The Panorama Nova Dive is based on a tried and tested mask body.  
Together with the 5-point harness it provides an excellent, tight fit.

ST-2671-2004

## Benefits

---

### **Excellent fit**

The Panorama Nora Dive diving mask provides an excellent, tight fit. This is achieved by the combination of mask body and 5-point harness.

---

### **Simultaneous connection of three breathing systems**

Up to three breathing systems can be connected simultaneously to the device.

---

### **Connecting two breathing systems and one comm. device**

Another option would be to connect a microphone as well as two breathing systems, for underwater communication.

---

### **Exhalation valve for water that has entered the system**

To enable the diver to easily blow out water that has entered the system, the Panorama Nova Dive has an additional exhalation valve. If the main breathing system has not been inserted in the mask, the diver can breathe ambient air on the surface of the water so that the breathing air from the cylinder is not used up.

---

### **Lens offers wide field of view**

As the new, plane lens is close to the face, it offers a particularly wide field of view. This also reduces the inner volume of the mask and, buoyancy. The lens has two integral nose clips to equalize the pressure.

---

### **Quick release system that can be used after diving**

Thanks to a unique quick release system the diver can remove the mask quickly after diving.

---

### **Four different designs**

The Panorama Nova Dive is available in four different designs: for professional use, with welding visor, for military use and for use with sports diving apparatus and rebreathers.

## Technical Data

Full face mask for open-circuit diving apparatus and rebreathers

Convenient pressure compensation system / lever system

Low air volume inside mask

Anti-fogging visor (protective lacquer)

EPDM mask body with 5-point head harness, inc. patented quick release system

Inner mask for open systems or mouthpiece for rebreathers

Integrated relief valve

Three mask connections

- main breathing system (regulator or rebreather)
- alternative air supply / Shark regulator
- microphone (communication unit UT 402)

Mask connection for residual pressure alarm only in versions for the following open-circuit systems: Panorama Nova Dive, Panorama Nova Dive for Welding

## Ordering Information

Description	Order-No.
Panorama Nova Dive Sport (without mask case) T 53 700	T 53 700
Panorama Nova Dive	T 53 510
Panorama Nova Dive R	T 52 730
Panorama Nova Dive SW, inc. protective visor for welding	T 53 525
Panorama Nova Dive NM	T 16 000
Valve mouthpiece for LAR	T 16 010
Valve mouthpiece for Dolphin	T 53 520
Valve mouthpiece for FGT 5400	T 16 418
Valve mouthpiece for SMT 7000	T 16 330
