

Dräger X-plore® 6300 Full-Face Mask

The Dräger X-plore® 6300 is the efficient yet low-cost full face breathing mask intended for price-conscious users not wishing to compromise on comfort or quality. This full face mask is the successor to the Panorama Nova Standard, a mask which has proven itself over decades of use worldwide – redesigned and improved with fresh colours and an integrated bar code.

ST-7497/2005

Benefits

Secure and comfortable fit

The mask body is made from durable and skin-friendly EPDM, with double-layer face seal and triple sealing edges which provides a secure and comfortable seal for every type of face.

Wide field of view

The scratch-proof and distortionfree PMMA Plexiglas visor with 180° wideangle guarantees a large field of vision with excellent panoramic view.

Efficient ventilation system

The efficient ventilation system with separate inner mask prevents the lens from fogging and ensures good vision.

5-point harness

The comfortable five-point head harness not only ensures that the mask can be donned easily and quickly, but is wide enough to prevent any pressure points on the wearer's head.

Easy maintenance and logistics

One size fits all which simplifies logistics and stocking. The barcode on the inside simplifies the recording and maintaining of the mask inventory.

Versatile use

The Dräger X-plore 6300 full-face mask is equipped with a Rd40 connection in accordance with EN 148-1 and can be combined with the extensive Dräger X-plore® Rd40 filter range.

Accessories

Dräger X-plore® Rd40

Whether used in chemical industry or automobile industry, shipbuilding, metal processing industry or by public utility services – for decades Dräger respiratory protection filters have been a synonym for experience and safety worldwide. They clean breathable air from contaminants in a low-cost and effective manner.
